Energy performance certificate (EPC)			
24, Helsby Road LIVERPOOL L9 4SH	Energy rating	Valid until: 28 March 2027	
		Certificate number: 8802-6416-6029-4726-6733	
Property type	Semi-detached house		
Total floor area		125 square metres	

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

Energy rating and score

This property's current energy rating is E. It has the potential to be B.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Solid brick, as built, no insulation (assumed)	Very poor
Roof	Pitched, no insulation	Very poor
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, TRVs and bypass	Average
Hot water	From main system	Good
Lighting	No low energy lighting	Very poor
Floor	Suspended, no insulation (assumed)	N/A
Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 353 kilowatt hours per square metre (kWh/m2).

How this affects your energy bills

An average household would need to spend £1,670 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £890 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2017** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 25,555 kWh per year for heating
- 2,761 kWh per year for hot water

Saving energy by installing insulation

Energy you could save:

- 4,817 kWh per year from loft insulation
- 9,291 kWh per year from solid wall insulation

Find ways to save energy in your home by visiting <u>www.gov.uk/improve-energy-efficiency</u>.

Environmental impact of this property		This property produces	7.8 tonnes of CO2
This property's current environmental impact rating is E. It has the potential to be C.		This property's potential production	2.4 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
Carbon emissions		These ratings are based or	•
An average household produces	6 tonnes of CO2	average occupancy and energy use. People living at the property may use different amounts of energy.	

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	£100 - £350	£240
2. Internal or external wall insulation	£4,000 - £14,000	£462
3. Floor insulation (suspended floor)	£800 - £1,200	£57
4. Low energy lighting	£40	£62
5. Heating controls (room thermostat)	£350 - £450	£35
6. Solar water heating	£4,000 - £6,000	£34
7. Solar photovoltaic panels	£5,000 - £8,000	£281

Help paying for energy improvements

You might be able to get a grant from the Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgradescheme). This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Barry Gurrell
Telephone	01512219866
Email	<u>floydian50@yahoo.co.uk</u>

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Stroma Certification Ltd
Assessor's ID	STRO028311
Telephone	0330 124 9660
Email	<u>certification@stroma.com</u>
