Energy performance certificate (EPC)

253, Long Lane Walton LIVERPOOL L9 6EE Energy rating

Valid until: 20 March 2024

Certificate number: 8944-7927-2710-7039-0926

Property type Semi-detached house

Total floor area 65 square metres

Rules on letting this property

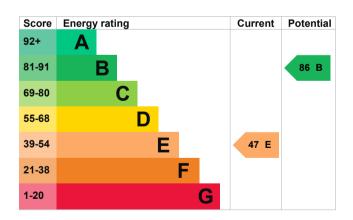

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance</u> for <u>landlords</u> on the <u>regulations</u> and <u>exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-quidance</u>).

Energy rating and score

This property's current energy rating is E. It has the potential to be B.

<u>See how to improve this property's energy efficiency.</u>

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall,	Good
Roof	Pitched, no insulation	Very poor
Window	Single glazeddouble glazing	Very poor
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer and room thermostat	Average
Hot water	Electric immersion, standard tariff	Very poor
Lighting	Low energy lighting in 17% of fixed outlets	Poor
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 353 kilowatt hours per square metre (kWh/m2).

How this affects your energy bills

An average household would need to spend £1,052 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £516 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2014** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 10,560 kWh per year for heating
- 1,776 kWh per year for hot water

Saving energy by installing insulation

Energy you could save:

• 2,715 kWh per year from loft insulation

More ways to save energy

Find ways to save energy in your home by visiting www.gov.uk/improve-energy-efficiency.

This property produces	4.3 tonnes of CO2	
This property's potential production	0.9 tonnes of CO2	
You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.		
These ratings are based or	•	
average occupancy and energy use. People living at the property may use different amounts of energy.		
st) ent.	This property's potential production St) You could improve this property. Ent. Emissions by making the strain will help to protect the These ratings are based or average occupancy and ento living at the property may under the production.	

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	\$100 - \$350	£151.09
2. Floor insulation	\$800 - \$1,200	£42.12
3. Draught proofing	\$80 - \$120	£20.85
4. Low energy lighting	£50	£27.99
5. Heating controls (TRVs)	\$350 - \$450	£25.09
6. Condensing boiler	\$2,200 - \$3,000	£82.38
7. Solar water heating	\$4,000 - \$6,000	£108.27
8. Replace single glazed windows with low-E double glazed windows	\$3,300 - \$6,500	£58.39
9. Solar photovoltaic panels	\$9,000 - \$14,000	£231.07
10. Wind turbine	\$1,500 - \$4,000	£20.07

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name Denis Murphy Telephone 01515301236

Email <u>littlegreenboxltd@gmail.com</u>

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme Stroma Certification Ltd

Assessor's ID STRO018017
Telephone 0330 124 9660

Email <u>certification@stroma.com</u>
